

Built on **Dell PowerEdge** and **Dell Max Pro** servers, GaiaB leverages Dell's enterprise-grade infrastructure trusted by organizations worldwide.

## Secure AI Within Your Walls

Enterprise-grade Generative AI automation that operates entirely on-premises, ensuring complete data sovereignty and compliance

### 100% On-Premises

Air-gapped operation.  
Your data never leaves.

### Zero-Code

Integrate instantly with  
existing systems.

### Scalable

Grow from Tiny to Large  
as needed.

### Sustainable

Energy-efficient,  
cost-effective design.

### Agentic AI

Intelligent autonomous  
automation.

### Compliant

GDPR-ready and  
regulation-friendly.

# Transform Operations

Deploy AI that delivers measurable ROI from day one

## Four Configurations – All Compatible

Fully interoperable · Scale seamlessly

**Tiny** GaiaB™

**Small** GaiaB™

**Medium** GaiaB™

**Large** GaiaB™

## Real-World Applications

### Intelligent Email Processing

Auto-sort and route customer requests. Reduce response times by 80%.

### Call Center Optimization

Call center agent evaluation, error detection, and quality enhancement.

### Meeting Intelligence

Automatic summaries and action items from recordings.

### Document Analysis

Accelerate approvals by 70% with AI-powered processing.
